II. Qualifications:

A. Basic Criteria:

- a. Overseas compatriot students who were born and have lived overseas to date or have lived overseas consecutively for at least 6 years and hold the Alien Permanent Resident Certificate or Long-term Alien Resident Certificate in the place of residence overseas, which is found to be true by the overseas recommendation unit. The continuous residence overseas for 6 years refers to the 6-year period calculated backward from the deadline for the application referred to in the Admissions Brochure as the base date. Those who only meet the required years of continuous residence as of August 31, 2022, however, may also apply on the condition that the affidavit is provided. The OCAC will investigate and validate the duration of overseas residence from the deadline for registration to August 31, 2022. If the years of continuous residence are not fulfilled, the accepted status/eligibility for placement will be canceled.

Remark 1:

The first stage: Retroactively for 6 years from Dec. 31, 2022 (between Jan. 1, 2017 and Dec. 31, 2022).

The second stage: Retroactively for 6 years from Jun. 15, 2023 (between Jun 16, 2017 and Jun 15, 2023).

Remark 2:

“Overseas” means countries or regions other than Mainland China, Hong Kong, and Macao. “Continuous residence” means “a length of stay in Taiwan in any calendar year (January 1 through December 31) not exceeding 120 days”. In other words, whether “continuous residence” is fulfilled or not depends on whether the length of stay in any calendar year (January 1 through December 31) in Taiwan exceeded 120 days during the above-mentioned 6-year period. When the start/end years during the said calculation period are not complete calendar years, however, it shall be determined by no more than 120 days of stay in Taiwan within the calculation period of each of such years.

Remark 3:

Under one of the following circumstances, the applicant is not considered as not fulfilling the continuous residence requirement. The length of stay in Taiwan is not included in the calculation of the duration of overseas residence (that is, the duration of overseas residence needs to be calculated retroactively). Enclose the supporting documents during registration to facilitate review.

Remark 4:

Whether one holds the Alien Permanent Resident Certificate or Long-term Alien Resident Certificate or not may be determined by the status of citizenship or permanent residency acquired or the overseas compatriot identity endorsement to the ROC passport.

Remark 5:

The duration of stay in Taiwan that may be excluded from the calculation of continuous residence as a result of the COVID-19 pandemic is from March 11, 2020 to August 31, 2022.
